

GREAT VALUE PRICE PLANS

Rolling the cost of your mobile phone into your price plan is no longer the best value way of buying a mobile phone. Bundling the cost of phones into your price plan often means you pay more for your phones than you should. Plus if you want to buy a new phone mid-contract you're stuck with hefty 'early termination charges'. More and more business are now entering into SIM-only contracts for their airtime and are renewing phones as and when the need arises, saving time and money.

Avoid those out of bundle charges

At Northern Telecom we know how annoying those 'out of bundle' charges can be. That's why our 'unlimited' call allowance plans also come with 50 minutes of inclusive calls to 'non-geographic' numbers each month, PLUS 50 minutes of calls to international numbers in Europe, the USA and Canada. How's that for great value!

Don't need much data, or unlimited calls or texts? No problem. Our 500 plan is perfect for you! It has 500Mb of data, 500 minutes of calls and 500 text messages per month. All for just £6.50 per month. To find out more call our team on 0113 831 5555 or email: sales@northerntelecom.co.uk

GREAT DEALS FOR BIGGER BUSINESSES

Buying mobile phone price plans that suit multiple members of staff is difficult. Some users require a lot of data. Some need much less. So rather than a one size fits all price plan for your people, it's much more economical to share data across your mobile connections. Here's how it works:

Firstly buy a standard SIM-only tariff without any data allowance for just £8.50 per user per month.

Then add a data only bundle which is shared across all of the users on your account. Our shared bundles start at 25Gb and go up to a massive 1000Gb.
